Subject: Re: EXCESS COOLERS AVAILABLE AT EPA WAREHOUSE

Karen,

We have 83 at the warehouse of various sizes. They have a bunch of coolers at Dimock still that they are going to use for a round of sampling. Instead of having the coolers shipped back to Dimock from the lab they were going to ship them to the COOP so we would not have to go to Dimock again to bring them back. Talked to Joanna and she will have some shipped to Wheeling instead. Joanna will talk to Debbie Lindsey to see what kind, how many and exactly where to ship them.

Subject: Fw: EXCESS COOLERS AVAILABLE AT EPA WAREHOUSE

Kevin:

I think Michelle has a good point (see below) - so if at all possible, could we get some coolers to Wheeling to have readily available? I am not sure about the timing of the 50 remaining coolers becoming available vs. shipping out some of those already in the warehouse. Could you arrange to have 15 various sized coolers shipped to the Wheeling START office? I don't have a bankcard, so not sure how shipping costs would be paid. Let me know what I need to do to help out with this shipment.

I tried to include OSCs on this email who work with the Wheeling START, so that these OSCs will know of the coolers being EPA-owned and available in Wheeling.

Thank you,

Subject: RE: EXCESS COOLERS AVAILABLE AT EPA WAREHOUSE

Karen-

I would like to request that EPA ship approximately 15 of these excess coolers to the START office in Wheeling, for use on future sites. They could be shipped "express saver" or "ground". We would like to avoid requesting them for project work just prior to a sampling event that we may be short on coolers for, so that the shipping charges aren't excessive (i.e., overnight).

In addition, are all of the coolers the same size (large)? We'd like to have some various sizes in stock...

Please let me know if this is possible, thank you.

Subject: EXCESS COOLERS AVAILABLE AT EPA WAREHOUSE

All:

This is to inform you that we have approx 50 coolers available at the EPA warehouse for use at SF Sites, with another 50 expected to be added to the warehouse soon. Please keep this in mind so we are not making unnecessary cooler purchases through START, or through any other purchase/contract vehicle. If coolers are needed, please make arrangements to obtain the coolers from EPA storage.

Thank you,

Karen Esposito
